250 delegates will participate at the conference who will have the opportunity to interact with well-known scientists around the world. Participants can be sure of picking up important concepts, which will be very useful in the days to come.”

The organizers expect more than 350 exhibitors and 8,500 visitors to analytica Anacon India and India Lab Expo. Both trade fairs have been growing in stature as one of the most influential pit-stops in the Indian Annual Trade Fair calendar. The two events bring together companies with similar product lines and business interests, apart from bringing the buyer and seller community on one common platform. The conference and various further forums will transmit additional momentum and background information on the various topics being deliberated at the trade fairs.
